CHAIRMAN'S MESSAGE

At Scan Steels, we not only pursue financial outcomes but also invest in the sustainability and preservation of natural resources, technology, the development and well-being of our employees as well as communities to make us future-ready.

Dear Shareholders,

It gives me immense pleasure to welcome you all to the 28th Annual General Meeting of Scan Steels Limited. The ensuing pandemic in the world has taken every body hostage. We are living and doing business with new normal, we don't know, how much time, we will be under the hostage drama. During the first wave of covid 19, business was transfixed. But strategic move by govt of India to balance life and livelihood, gives impetus for business sector to recover from the lost ground slowly. I would have very much liked to meet and address you in person, but as you know, we are holding this meeting over a virtual platform due to the unprecedented health crisis triggered by the

COVID-19 pandemic that not only posed significant threat to human life, but also impacted livelihood. I would like to thank you for sparing the time to join us today from wherever you are, and for your continued faith in Scan Steels Limited and its management. I hope you and your family members are remaining healthy and staying safe.

As you know, the Fiscal year 2021 started off with lots of hope and aspiration for market consolidation, but again pandemic come with Monster disposition to engulf. The back bone of Indian economy is infrastructure sector, which contribute huge to the national GDP directly and indirectly, the infra sector was in full swing during the second wave, this was an opportunity in the crisis and our leadership team have visualised the opportunity and capitalised with aggressive strategy to regain the glory.

SCAN STEELS LIMITED has created history by going beyond it all records of its annual of business since its inception. Sales volume, revenue generation, Manufacturing excellence, bottom line enhancement and community development have marked with exception result this year.

I must acknowledge the understanding and support of our numerous customers; on whose trust we continue to evolve and grow.

I would also like to convey my appreciation to the employees of Scan Steels Limited as well as its dealers, business associates and vendors and their families for their laudable efforts in pursuing business continuity and their ongoing and relentless efforts towards restoring growth trajectory in our organisation. With courage and conviction, and diligence and determination, they continue to contribute, placing the Company's interests above their own. Their commitment and sacrifices will definitely be recorded in the history of our glorious Company.

In FY2020-21 financial results, the turnover is ₹736.45 crore during this financial year against the revenue of ₹30.74 crores. And the turnover of the first quarter of 2021-22 is ₹239.17 crore against the revenue of ₹21.79 crores. This has been a wonderful year beyond our expectations.

Apart from big cities in odisha, our presence is strong in rural packets too and **Shrishtii** brand is always a household name in eastern India.

Apart from adjusting to the new normal and coping with intermittent lockdowns, our focus continues to be on maintaining market leadership in our chosen geographical areas of business. Prudent capital allocation, efficient cash management and a tight cost structure shall be our top priorities in coming times

It is important for us to preserve our identity and leadership as a trusted by our value chain partners both in B2B and B2C sales segments and to pursue profitable growth with distinctly different and appropriate strategies that the businesses call for.

In the AGM, I would like to tender my goodwill gesture and thankfulness for the stakeholders, value chain partners and all employees of Scan Steels Ltd. The unstinted supports of all have put us right picture throughout the year.

Thanking you

24. VOTING THROUGH ELECTRONIC MEANS

In compliance with Section 108 of the Companies Act, 2013, read with Rule 20 of the Companies (Management and Administration) Rules, 2014, as substituted by the Companies (Management and Administration) Amendment Rules, 2015 and Regulation 44 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (as amended), and Secretarial Standard-2 on General Meetings and also, in the wake of Covid-19 pandemic as per MCA Circulars dated April 08, 2020, April 13, 2020 and May 05, 2020, January 13, 2021 read with SEBI applicable circulars, the Company is pleased to provide to its members facility to exercise their right to vote on resolutions proposed to be considered at the Annual General Meeting by electronic means and the business may be transacted through e-voting services arranged by Central Depository Services (India) Limited ("**CDSL**"). The members may cast their votes using an

electronic voting system ("**remote e-voting**") for the ensuing Annual General Meeting.

The facility of casting votes by a member using remote e-voting as well as the e-voting system on the date of the AGM will be provided by CDSL. instructions for e-voting are given here in below.

The Process and manner for remote e-voting are as under:

- (i) The remote e-voting period begins on Monday, 27th September, 2021 from 9.00 a.m. and ends on Wednesday, 29th September, 2021 at 05.00 p.m. During this period shareholders of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date (record date) of 23rd September, 2021, may cast their vote electronically. The remote e-voting module shall be disabled by CDSL for voting after 5.00 p.m. on 29th September, 2021.
- (ii) Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting.
- (iii) Pursuant to SEBI Circular No. **SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020**, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to **all**

the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

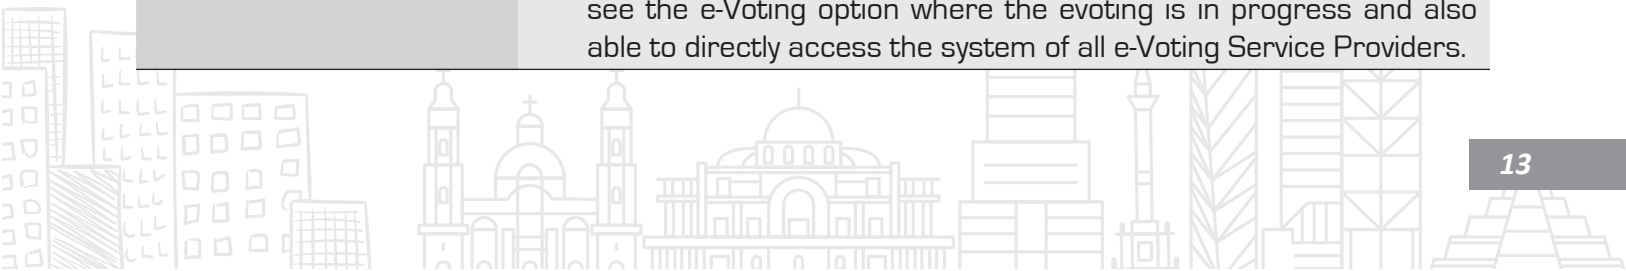

(iv) In terms of **SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242** dated December

9, 2020 on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.

Pursuant to abovesaid SEBI Circular, Login method for e-Voting and joining virtual meetings **for Individual shareholders holding securities in Demat mode** is given below:

EXPLANATORY STATEMENT PURSUANT TO SECTION 102 (1) OF THE COMPANIES ACT, 2013.

As required by Section 102 of the Companies Act, 2013, (hereinafter referred to as “the Act”) the following Explanatory Statements set out all material facts relating to the business mentioned under Item Nos. 3 to 5 of the accompanying Notice dated **25th August, 2021**

ITEM NO. 3:

The Board of Directors of the Company, based on the recommendations of the Nomination and Remuneration Committee (‘NRC’), appointed Mr. Shravan Kumar Agrawal (DIN 09139761) as an Additional Director of the Company with effect from June 15, 2021. In terms of Section 161(1) of the Act, Mr. Agrawal holds office up to the date of this Annual General Meeting (‘AGM’) and is eligible for appointment as a Director (Non-Executive-Independent). The Company has received a Notice from a Member in writing under Section 160(1) of the Act proposing his candidature for the office of Director.

Based on the recommendations of the NRC and subject to the approval of the Members, Mr. Agrawal was also appointed as an Independent Director of the Company, not liable to retire by rotation, for a period of 5 (five) consecutive years commencing from June 15, 2021 to June 14, 2026, in accordance with the provisions of Section 149 read with Schedule IV to the Act.

Mr. Shravan Kumar Agrawal has consented to act as Director of the Company, subject to appointment by the Members and has given his declaration to the Board that he meets the criteria for independence as provided under Section 149(6) of the Act and Regulation 16(1)(b) of the SEBI Listing Regulations. In terms of Regulation 25(8) of the SEBI Listing Regulations, Mr. Shravan Kumar Agrawal has confirmed that he is

not aware of any circumstance or situation which exists or may be reasonably anticipated that could impair or impact his ability to discharge his duties. He has also confirmed that he is not debarred from holding the office of a director by virtue of any SEBI Order or any such Authority. Further, Mr. Shravan Kumar Agrawal is not disqualified from being appointed as a Director in terms of Section 164 of the Act. Mr. Shravan Kumar Agrawal has confirmed that he is in compliance with Rules 6(1) and 6(2) of the Companies (Appointment and Qualification of Directors) Rules, 2014, with respect to his registration with the data bank of Independent Directors maintained by the Indian Institute of Corporate Affairs (‘IICA’). Further, Mr. Shravan Kumar Agrawal has also cleared the online proficiency self-assessment test conducted by IICA.

In the opinion of the Board, Mr. Shravan Kumar Agrawal fulfils the conditions specified under the Act read with Rules thereunder and the SEBI Listing Regulations for his appointment as an Independent Non-Executive Director of the Company and is independent of the management.

Copy of draft letter of appointment of Mr. Shravan Kumar Agrawal, setting out the terms and conditions of his appointment, The terms and conditions of the appointment of Independent Directors and the notice received from the member proposing his candidature is available for inspection by the members during business hours in between 11.00 a.m. to 01.00 p.m. on all working days (except Saturday, Sunday and Public Holiday) at the Registered Office of the company up to the date of the AGM. Alternatively, Members can send a request along with their DP/Client ID or Folio No. from their registered email address to the Company at secretarial@scansteels.com.

Mr. Shravan Kumar Agrawal is a commerce graduate, and a qualified CS, CMA, PGDMA (Finance), CA (Inter), and has 8 years' experience in steels sector.

OUTLOOK

The outlook for its margins and profitability for this business depends on overall economic outlook. The outbreak of Coronavirus (COVID-19) pandemic globally and in India is causing a significant disruption and slowdown of economic activity specifically in India the second wave of COVID-19. Measures taken to contain the spread of the virus, including travel bans, quarantines, social distancing and closures of non-essential services and the uncertainty associated with the lifting or reimposition of these restrictions, have further aggravated the business environment.

The phased easing of restrictions in India also augurs well for the economic revival. Further, India unleashed policy stimulus equivalent to 10%

of GDP or ₹20 trillion to revive the economy. Workforce remobilisation will be a key challenge for the core sectors of the economy. However, lower energy prices and expectations of a normal monsoon are positive for consumption outlook. With this a gradual recovery in economic activities is expected in the second half of FY 2020-21.

India's annual consumption of steel is now 100 MnT. Given the large market size it attracts imports of steel from various countries notably FTA nations (South Korea, Japan, ASEAN). As on March 2020, about 64% of steel imports originates from the FTA countries where the import duty is nil. This poses a threat to the health of domestic steel industry necessitating close monitoring and effective remedial measures.

For India to become a U.S.\$5 trillion economy, the infrastructure sector will serve as a critical pillar of economic growth. India's growing urban infrastructure and manufacturing sectors indicate that demand for steel is likely to remain robust in the coming years. Several government initiatives, such as providing affordable housing, expanding road and railway networks, developing the domestic shipbuilding industry, opening up the defence sector to private participation, and growth in the automobile sector are expected to create significant demand for steel in the country.

The National Steel Policy 2017 envisages construction & infrastructure to grow at a CAGR of 7% from FY 2015-16 to FY 2030-31. Under the New Steel Policy, the government targets to increase steel production capacity to about 300 MTPA by 2030. To participate in the strong India growth story, the Company laid out an expansion plan making innovative changes and technological improvements, leaving no stone unturned in fulfilling dreams of its founding fathers, tuning every activity to meet the subtle demands of its customers.

In the Union Budget 2020-21, the government announced its plan to invest ₹100 trillion in infrastructure over the next five years. The government is also targeting to attract ₹50 trillion investments in the railways sector via public-private partnerships by FY 2029-30. Blueprints are also being prepared for the development of gas-grids, water-grids, i-ways (communication networks) and regional airports, on the lines of 'One Nation-One Grid' for power.

BUSINESS IMPACT OF COVID-19

The outbreak of COVID-19 pandemic has led to an unprecedented health crisis and has disrupted economic activities and global trade, while weighing on consumer sentiments.

During the year under review, the Government of India had imposed stringent nationwide lockdowns, in phases, which severely impacted

manufacturing activities. Though the Steel and Mining sectors were allowed to operate under the Essential Services Maintenance Act, 1968 they were subject to certain guidelines. Steel demand was affected as key steel consuming sectors struggled to operate amidst weakening economic activities, working capital constraints, shortage of manpower, and logistical issues

The spread of COVID-19 across the globe has resulted in decline in economic activity and increase in volatility in financial markets. In this situation, though the challenges continue to unfold, the company is gearing itself on all fronts to meet the same. The situation continues to be uncertain and the company is evaluating the situation on an ongoing basis. The challenges for the company would arise from loss of revenue and waning cash flows. Despite these conditions, there has not any significant impact on the liquidity and profitability of the company. Also, the domestic steel demand improved from the second half with favourable policies, increased government spending and relaxed movement norms. We managed to deliver broad-based, market leading volume growth supported by our agile business model.

The risk-intelligent culture embedded across the Company helped in developing and adopting a multi-pronged strategy to effectively respond to the evolving pandemic situation. The health and safety of our employees and the communities in which we operate continue to be the foremost priority of the Company. To mitigate the risks and challenges faced by the Company during the pandemic, the Company enhanced safety and hygiene norms at offices, implemented work from home, staggered shift timings for safety of employees and leveraged digital platforms for its day-to-day operations. During the challenging times, the Company maintained its liquidity position by minimising cash outflows and maintaining a judicious mix of funding instruments to fulfil its operational requirements.

We estimate that future impact of COVID-19 on its operations may move either side depending on the normalization of its business and demand of products.

Company is engaged in manufacturing of the basic essential TMT Rod product and demand for the same is expected to increase gradually with lockdown relaxations and measures to be taken to curb COVID 19 Impact in future.

MANAGEMENT DISCUSSION AND ANALYSIS

Our fully integrated operations – from mining to finished steel production – enables us to deliver superior value proposition. We invest continuously in process efficiency and state-of-the-art technology with a relentless focus on innovation.

1. OVERVIEW

The following operating and financial reviews are intended to convey the Management's perspective on the financial and operating performance of the Company at the end of Financial Year 2020-21.

The objective of this report is to convey the Management's perspective on the external environment and steel industry, as well as strategy, operating and financial performance, material developments in human resources and industrial relations, risks and opportunities, and internal control systems and their adequacy in the Company during the Financial Year 2020-21. This Report should be read in conjunction with the Company's financial statements, the schedules and notes thereto and other information included elsewhere in the Integrated Report. The Company's financial statements have been prepared in accordance with Indian Accounting Standards ('Ind AS') complying with the requirements of the Companies Act, 2013 as amended and regulations/ guidelines issued by the Securities and Exchange Board of India ('SEBI'), from time to time. Your attention is also drawn to sections on Opportunities, Risks and Strategy Planning forming part of the Integrated Report.

1.1 ORGANISATIONAL OVERVIEW

The Scan Group is renowned name in Iron and Steel Industry backed by 27 glorious years of experience in steel making. Scan Steels Limited is the flagship company of "Scan Group" of industries and represents integrated Steel Plant located at Rajgangpur, Odisha near Rourkela and other factory is in Bellary (Karnataka). Scan Steels is a complete integrated steel manufacturing unit having its own captive power plants, sponge iron and SMS.

The company is a pioneer in starting DRI unit in the State of Odisha. Over the years the Company has added many upstream as well as downstream value adding installations to attain better control over its processes, minimize production cost, wider market penetration and minimize energy dependence on the state grid by means of installing a Captive Power Plant. During a decade the Company form merely being a rolling mill became Integrated Steel Producer. The Company expanded its activities by way of acquisition at present is having manufacturing facilities in the States of Odisha, Karnataka.

We have vast range of rolled steel TMT products which ranges from 8mm to 32mm.

2. EXTERNAL ENVIRONMENT

2.1 MACROECONOMIC CONDITION

Global GDP contracted by 3.5% in 2020 as governments in both developed and emerging economies took measures to contain the spread of the COVID-19 virus. While the decline was sharper than the global financial crisis in 2009, but the scale of the fiscal response to the COVID-19 crisis was unprecedented and three times bigger than 2008-09 financial crisis. The response by policy makers prevented a collapse that would have been at least three times worse, and the medium-term losses for the global economy are expected to be smaller than the global financial crisis.

While China is forecasted to continue its rapid growth in 2021, Latin America and the Eurozone is expected to lag behind. US saw overall GDP decline of 3.5%. India's economy rebounded quickly from one of the world's longest and

most stringent lockdowns, which also came with steepest fall in GDP in Q2. Real GDP grew by 0.4% in Q3FY2021 after a contraction in the previous two quarters. Real GDP is estimated to have contracted by ~8% in FY 2020-21.

2.2 ECONOMIC OUTLOOK

The accelerating rollout of COVID-19 vaccines in many advanced economies has set the stage for rapid recovery in the second half of this year and into 2022. Advanced economies will remain less affected by the virus this year and beyond, with low-income countries and emerging markets suffering more which is a contrast to 2009. While, the global economy is expected to recover to its pre-pandemic level of output in 2022, the emerging-market and developing economies are expected to take until 2023 to recover to the pre-pandemic level. Policy rates in the United States, Eurozone, United Kingdom, and Japan will remain near zero, well beyond 2021. Emerging market and developing economies may take until 2023 to recover to the pre-pandemic level. Divergent recovery paths are likely to create wider gaps in living standards across countries compared to pre-pandemic expectations.

2.3 INDIAN ECONOMY

India witnessed a gradual resumption of economic activity from Q2FY2021. The initial recovery was driven by government spending on infrastructure, exports and rural economy. The recovery gained momentum since August 2020 with pickup in consumption demand driven by festive buying and return of urban consumption. However, the growth projections for FY 2021-22 have been revised to be below 11% due to the acute resurgence of the virus in the country, as

many cities and states went into lockdown. While the growth will depend upon the trajectory of the pandemic, the overall impact on the economy is expected to be less severe than last year.

India is expected to witness a full economic recovery in H2FY2022 driven by (a) ongoing vaccination supporting the current recovery momentum; (b) restart of investment cycle with significant spending on infrastructure and (c) continued recovery in consumption supported by urban demand, accentuated by work-from-home and preferences for personal mobility along with rising rural income and affordability. However, normal growth levels would be seen in FY 2022-23 only, provided no further economic disruption occurs and success of the ongoing vaccination drive.

EFFORTS CARRIED OUT TO REVIVE ECONOMIC GROWTH

The government's mega push for commodity intensive infrastructure development projects helped boost demand for manufacturing and commodities such as steel and cement, even as services remained muted. A pro-growth Union Budget with a ₹5 trillion capex lifted sentiments and the ₹110 trillion National Infrastructure Pipeline (NIP), announced earlier, is expected to support gross fixed capital formation. In early October 2020, the Centre also announced ₹12,000 crore interest-free, 50-year tenor loans to states for spending on capital projects, aimed at boosting the respective local economies.

₹5 trillion

Capex announced in Union
Budget 2021-22

India's increasing prominence as a manufacturing and investment destination is validated by rising competitiveness, ease of doing business, and

decisive policy action. Therefore, India is well placed to benefit from the realignment of global supply chains and 'China+1' sourcing approach of MNCs looking at cost, safety, and long-term stability, as evidenced in multiple sectors ranging from chemicals, pharmaceuticals and even electronics and mobile phone manufacturing.

By all estimates, India was on the course to becoming the only major economy to register double digit growth in FY 2021-22 when the brutal second wave hit. The severity and scale of the infections are a definite risk to growth. However, compared to the previous year, infrastructure and construction activities are better insulated, and the economy has the potential to bounce back. The rapidly increasing pace of vaccinations and availability of multiple vaccines are likely to aid a broad-based recovery.

GOVERNMENT MEASURES TO BOOST ECONOMY DURING THE TIMES OF COVID-19 PANDEMIC

By the end of March 2020, all of India was under a near total lockdown as the government prioritised a strategy to reduce the spread of the virus. This had a domino effect on most industries, but nowhere was the impact more pronounced than on unorganised labour, earn-and pay citizens, MSMEs without a strong safety net, and industries such as travel and tourism, along with their ancillaries and affiliates.

The government swung into action to provide relief to the vulnerable sections and take some sting out of the pandemic's impact on the nation's economic engine. The RBI played an important role in complementing the government efforts. It adopted an expansive monetary policy and aimed at injecting liquidity into the system while announcing a series of rate cuts as part of its 'accommodative stance' on interest rates. The government and the RBI worked together to provide a moratorium on loan repayments and stressed-asset classifications, which protected

lenders and borrowers alike. Subsequently, the Finance Ministry launched the Emergency Credit Line Guarantee Scheme (ECLGS), designed to provide higher levels of borrowing capacity, at controlled interest rates, to further support the MSME sector. Such schemes have begun to demonstrate results and have aided many businesses and individuals to come back on their feet. There were many other tactical measures such as relaxation on compliance, reduction of withholding tax rates to boost cash flow, increased focus on tax refunds, and direct benefits transfer to name a few.

The Government of India announced Production Linked Incentives (PLI) schemes across ten key sectors in March 2020. The scheme, aims to boost domestic manufacturing under the government's Atmanirbhar Bharat initiative. Key Sectors are Namely Mobile Manufacturing and Specified Electronic Components, Pharmaceuticals drugs, Drug Intermediaries and Active Pharmaceutical Ingredients, Manufacturing of Medical Devices, Electronic or technology products, Telecom & networking products, food products, High efficiency solar PV modules, White goods (ACs & LEDs), Automobiles & Auto Components, Advance Chemistry cell (ACC) Battery, Textile Products, Speciality Steel.

In the Union Budget 2021-22, presented on February 01, 2021, the finance minister announced an outlay of ₹1.97 lakh crore for PLI Schemes for 13 key sectors, to create national manufacturing champions and generate employment opportunities for the country's youth.

The scheme aims to provide incentives to companies for enhancing their domestic manufacturing. Further, focusing on reducing import bills and improving the cost competitiveness of local goods. The scheme also offers Incentives on incremental sales for products manufactured in India.

Aimed at increasing manufacturing GVA from the current 16.5% and reducing import dependence, the PLI scheme is expected to unlock over US\$ 520 billion of additional output in the short-to-medium term. It is also expected to trickle down to create significant employment and growth prospects and boost MSMEs that have forward linkages with manufacturers under PLI.

INDIAN ECONOMIC OUTLOOK

India has bounced back strongly and much better than several other economies. The IMF pegs India's real GDP growth at 12.5% in FY 2021-22, as the vaccine rollout accelerates, and economic activities continue to normalise. The economic and business sentiment has substantially improved, and investor sentiment is robust. Oil prices are on a rise, and commodity prices are seeing significant highs. The recovery in the automotive sector, notably in two wheelers and passenger vehicles, has been better than anticipated.

12.5% ↑

India's projected real GDP growth in FY 2021-22

Going forward, the economic scenario can be expected to be driven by pent-up positive savings, rapid vaccine deployment, expanding stimulus, low interest rates, dollar weakness, accommodative monetary policy and commodity-intensive public expenditure. That said, the pandemic scenario remains fluid, with the second wave of infections igniting concerns. The possibility of stretched lockdowns and associated disruptions are likely to keep the economy on tenterhooks, at least in the near-term.

SCAN STEELS VIEW:

From an organisational standpoint, SSL views FY 2020-21 as a year of India's resilience. Despite recording significant contraction due to pandemic

induced challenges. The Indian economy registered a sharp rebound. As the unlocking began. Demand started picking up. This was even more pronounced in the latter half of the year as the discovery and rollout of vaccines commenced.

The Government and the central Bank played a proactive role in stabilising the economy and ensuring adequate liquidity in the system which helped improve settlement. With a focus on kickstarting the economic growth engines and providing a boost to domestic manufacturing.

Scan steels stand strong with India and the world in the wake of the COVID-19 outbreak and is actively contributing to relief efforts in its possible ways. While the disruptions in the economy and supply chains have temporarily dented the Company's performance, the Management has engaged a Business Continuity Plan that guides operations and ensures productivity, across the organisation. On the economic front, the '**Atma Nirbhar Bharat Abhiyan**' will help boost economy and small business as well as create domestic demand.

3. STEEL INDUSTRY

3.1 GLOBAL STEEL INDUSTRY

Disruption on both demand and supply resulted in global steel demand in 2020 to fall by 0.2% against a growth of 3.7% in 2019. The total demand in 2020 was 1,772 MnT against 1,775 MnT in 2019. The impact of COVID-19 has been much more benign for the steel industry due to resurgent demand in China and better than expected post lockdown recovery globally in second half of 2020. China and Turkey were two key countries that saw an increase in finished steel demand of 9% and 13% respectively in 2020. North America and the European Union ('EU') have experienced strong decline in steel demand owing to the COVID-19 pandemic. Both regions experienced demand decline of around 11%-16%. India also contributed to global decline, as

steel consumption in India declined by 13.7% to 88.5 MnT in 2020 against 102.6 MnT in 2019.

33 MnT

Supply gap created owing to curb of Chinese exports in 2020

Up to 30% of global steelmaking capacity (excluding China) was idled or production at steel mills significantly reduced in response to a pandemic-induced drop in demand. However, the recovery in automotive production and white goods manufacturing was quicker than expected when the strictest lockdown measures were lifted. The construction sector was less affected, as it was supported by government stimulus schemes in many regions. As a result, steel prices rallied in all regions in late 2020.

To meet global energy and climate goals, emissions from the steel industry must fall by at least 60% by 2050*

3.2 OUTLOOK

Steel demand is expected to be strong due to recovery in manufacturing businesses around the world and global fiscal stimulus supporting infrastructure projects. The outlook for 2021 is expected to be positive because of the unprecedented fiscal stimulus provided by the governments across Europe, the US, Japan, Korea, Russia and China. These stimulus packages are expected to spur growth in these nation's respective infrastructure sectors, boosting steel demand. China is expected to grow by 5% in 2021 with continuation of healthy demand conditions especially in the first half of 2021. Steel demand in key emerging economies (like India, Turkey) and Europe is expected to witness double digit

recovery while Asia and Middle-East are likely to grow by 5%.

While it is expected that steel prices will consolidate closer to historical levels, prices are likely to remain high supported by (i) strong iron ore prices, (ii) rebound in coking coal prices, (iii) positive impact from stimulus plans, and (iv) improved business confidence from the roll-out of vaccines. Strong rebound of demand in 2021, in addition to supply-side reforms in China could lead to higher steel prices globally.

1874 MnT

5.8% y-o-y

Expected global steel demand in CY 2021

Political and geopolitical developments, such as a reduction in government stimulus programmes, policies to cut emissions and trade wars, could increase pressure on the steel sector.

3.3 INDIAN STEEL INDUSTRY

While the initial quarter of the fiscal proved to be unprecedented slowdown with the consecutive lockdowns, the rest of the year witnessed a high-powered demand revival in consumption industries such as automobiles. Demand for appliances improved due to the large-scale shift towards work-from-home, and construction activity picked up with government expenditure. This mirrored the global scenario, as demand picked up after liquidity was pumped into the economy together with a flurry of infrastructure project announcements.

In Q1 FY 2020-21, the steel mills faced shortage of labour, supply chain disruptions and truncated utilisation levels, besides a plummeting of demand. As a result, in the first half, the industry cumulatively produced 43.63 MnT of crude steel, 21% lower compared to H1 FY2020-21. However, the industry did well to increase its exports during this period, in order to offset the soft domestic demand. Nevertheless, as the year progressed, the economy started to gradually open up and

the pent-up demand started to materialise, which augured well for the steel segment.

India's steel industry has also suffered the production loss due to lockdown last year and recovered gradually since then, initially driven by export followed by gradual recovery in domestic demand. Strong rebound in manufacturing and infrastructure development activity has led to a sharp rise in both production and consumption of steel in India. In 2021, India's steel demand is expected to grow by 20% over 2020, taking the demand higher than the pre-pandemic level of 103 MnT, driven by strong infrastructure spending and sustained demand of automotive and consumer durables.

The Indian steel industry is seeing large-scale consolidation, and this presents a conducive operating environment for existing players. Post 2015, investment in the steel sector had hit a roadblock owing to Chinese dumping, which challenged the pricing environment. This led the installed steel capacity to stagnate at about 140 MnT. Currently, the industry operates at ~80% of this capacity. To meet the potential demand, the country has only around 10-15 MnT left for utilisation. Upstream and downstream domestic capacity expansion is thus critical for the industry's growth and to support the country's rapidly increasing steel demand and consumption.

The key opportunities boosting the steel demand are as follows:

- Government's focus on strengthening the domestic manufacturing base under the flagship "Atmanirbhar Bharat" programme. The Production Linked Incentive scheme has been introduced to boost the manufacturing sector in industries like automobile & auto components, consumer durables, solar equipment, telecom, etc. These are expected to boost steel consumption.
- Government has announced an investment

of over ₹1 trillion in infrastructure over the next 5 years. This would be a key growth driver not only for steel industry but will also be a multiplier of growth across the sectors, boosting steel demand from sectors such as transportation, real estate and infrastructure.

- Emergence of new trends after COVID-19 such as work from home, preference to physical distancing would create additional demand for furniture, personal mobility, etc. In addition, the rise in e-commerce activity will support the growth of warehousing and light commercial vehicles.

However, the downside to these opportunities are as follows:

- Resurgence of infections leading to fresh lockdowns, both localised as well as regional / national level resulting in disruption in economic activity.
- Heavy dependence of agriculture sector on monsoon. In last 2 years, a normal monsoon has supported the growth in agriculture sector.
- Slower recovery in contact-based services, which is an integral part of Indian economy and affects lives & livelihood of service sector.

OUTLOOK

The future of the Indian steel industry appears encouraging. Indian steel consumption stood at 94.14 MnT at the end of FY 2020-21, down 6% y-o-y. In FY 2021-22, the demand is expected to touch 110 MnT, presenting an incremental requirement of 16 MnT over that of last year. The revival and expected growth will be a function of public expenditure on infrastructure, which majorly drives incremental demand. In addition, end-user industries such as automobiles, engineering, piping and packaging are also seeing an uptick. Demand for commercial vehicles is also slated to go up. Together, they will enable the industry to pick up where they left off before COVID-19 struck.

The Union Budget 2021-22 has outlined a strong focus on infrastructure development (a 34.5% improvement over the last Budget's estimates) giving significant impetus to steel as an industry. The Budget also announced several initiatives such as affordable housing, expansion of road and railway networks, development of domestic shipbuilding industry and opening up of the defence sector for private participation, all of which are expected to create massive demand for steel in the country. The finance minister in her budget proposal, also mentioned the reduction of customs duty uniformly to 7.5% on semis, flat, and long products of non-alloy, alloy and stainless steel. To provide relief to metal recyclers — mostly MSMEs — duty on steel scrap is exempted until March 31, 2022. The Centre has also removed antidumping and countervailing duties levied on certain steel products until September 30, 2021.

OPPORTUNITIES AND THREATS

The pandemic has disrupted traditional business models, creating new opportunities and business models that embed sustainability. With India's continued infrastructure push and low per capital steel consumption, demand for steel is likely to increase significantly going forward. At Scan Steels, we continuously evaluate the evolving trends and respond proactively to capitalise on the emerging opportunities.

Demand for residential, commercial and retail real estate is rising throughout India, accompanied by increased demand for hotel accommodation and improved infrastructure. The Indian economy is likely to become the third largest economy by 2030, and the steel industry will play a pivotal role in this growth journey.

With large raw material reserves, strong base of technically skilled manpower and one of the fastest growing markets in the world, India has definite structural advantages for a successful steel industry. The National Steel Policy 2017 seeks to create a globally competitive steel industry in India with 300 million tonne steelmaking capacity and 158 kg per capita steel consumption by FY 2030-31. The growth in demand will come from traditional, as well as emerging consuming sectors focussing on changing needs of customers. Government-led investment in infrastructure, rapid urbanisation, rising preference for personal mobility, growth in capital goods sector, and government focus on making India 'Aatmanirbhar' are expected to stimulate steel demand in India. The acceleration of the rural economy is also emerging as a potential demand driver for steel. The Government has taken an objective of increasing rural per capita consumption of steel from current 19.6 kg to 38 kg by FY 2030-31. Opportunities abound in growing economies and opening of economy in India has created opportunities for India enterprise to move beyond national boundaries as well to create productive assets. Presently, the Company is consolidating its gains out of creating additional production capabilities.

While climate change is a key risk for a 'hard to abate' sector such as steel, it also provides an opportunity to take a leadership role in the steel industry by reducing our environmental footprint.

Evolving consumer needs and growing focus on sustainability will require innovation in process, product, and business models supported by a strong technology management process. Organisations can create a differentiated position by focussing on creating the technology of tomorrow. Scan steels aspires to achieve this goal by leveraging in-house potential and The Innovent team focusses on consumer in innovation through a deep understanding of their emerging needs.

Growing urbanisation will see demand for steel focussed on modularisation, amenable to the fast pace of construction and better aesthetics. In addition, with changing demographics and higher affordability, the nature of steel consumption in sectors such as automobiles, white goods and other consumer goods is fast evolving. Along with new products, there is a focus towards providing higher convenience. A culture of customer-obsession and providing customers with the best products and experience will enable our company to be the supplier of choice for discerning customers.

STRENGTH

Company having fully integrated sufficient steel making multi-location manufacturing facilities and the various plants comprises of:

- ❖ DRI Unit
- ❖ Induction Furnace with Concast
- ❖ Steel Melting Shop
- ❖ TMT Rolling Mills
- ❖ Captive Power Plant
- ❖ Coal Washery

Company has a production capacity of 300 TPD of TMT under the brand name of “SHRISHTII TMT”. It is the largest TMT manufacturing plant in Odisha with total integration. The marketing network of the company is very well organized. It fulfills the demand and requirements of all type of customers in urban area as well as in rural areas.

RISK AND CONCERNS

Global economic uncertainties have affected India’s economy, Key risks synonymous to industry include the global recessionary trend, economic slowdown, increase in financial charges, non-availability (or undue increase in cost) of raw materials, such as, steel and labour etc., coupled with market fluctuations. The Company does not apprehend any inherent risk in the long run, with

the exception of certain primary concerns that have afflicted the progress of our industry in general, like:

- shortage of Labour
- rising manpower and material costs,
- Approvals and procedural difficulties.
- Lack of adequate sources of finance.
- Impact created by COVID-19 Pandemic in the First Half of the F.Y 20-21

The Company is exposed to risks from market fluctuation of interest rate and stock market fluctuation of the share prices.

Risk Management Committee [‘RMC’] of the Board provides oversight and sets the tone for implementing the Risk Management framework across the organisation.

The risk appetite of the organisation is aligned to the SSL Vision. Risk Appetite is driven by the following:

- Health and safety of our employees and the communities in which we operate are our prime concern and our operating strategy is focused on the above objective
- All business decisions are aligned to the Scan Steels Code of Conduct
- Management actions are focused on continuous improvement
- Environment and Climate Change impacts are assessed on a continuous basis
- The long-term strategy of the Company is focused on generating profitable growth and sustainable cashflows that creates long-term stakeholder value

Risk Owners may accept risk exposure to their Annual and Long-term business plans, which after implementation of mitigation strategies, is aligned to our risk appetite.

The Company continues to be vigilant of the evolving pandemic situation to proactively manage risks, as they emerge in FY 2021-22. Health and safety of employees and the communities in the vicinity of our operations, continues to be the top-most priority for the Company, whilst simultaneously ensuring continuity of our business operations.

A detailed overview on the risk landscape and mitigation strategies

Macroeconomic Risks

Overcapacity and oversupply in the global steel industry as well as increased levels of imports may adversely affect steel prices, impacting profitability.

key mitigation strategies Diversification of product portfolio, Development of alternate markets etc.

Commodity Risk

Raw materials (mainly coal and iron ore) are a significant contributor to the input cost in steelmaking. These commodities have global supply chains and their prices get impacted by various factors such as dynamic geopolitical landscape, supply-demand imbalance, weather patterns, policy interventions by governments in key sourcing/ consuming countries (especially China), etc. Our profitability can get significantly impacted due to the volatility in raw material prices.

key mitigation strategies Developing predictive analytics tool to have advance information on price direction so as to optimise buying decisions helps to curtail the Risk. The captive/ domestic raw materials provide another avenue to guard against volatility as they have relatively stable cost/price. Scan steels has undertaken risk assessment to assess the capability of key vendors. We proactively engage on assessing the risk of single geography sourcing and mitigations have been put in place to diversify sourcing and/ or find alternate materials.

Regulatory Risks

Our operations are governed by various statutes encompassing law and regulations for environment and climate change, trade measures, competition, taxes, mining and others. Any deviation in compliance and adherence has the potential to not only impact our operating performance but also dent our reputation. The continuously evolving regulatory scenario, resulting in changes of the statutory provisions and introduction of newer ones, make compliance more complex. Non-compliance to increasing stringent regulatory environmental norms may result in liabilities.

key mitigation strategies We are continuously scanning the regulatory canvas to understand the changing statutes and their implications, that could influence our procurement decisions and market footprint, to protect and generate business value. Focus on compliance Dialogue with regulatory authorities for greater clarity and availing legal consultations for timely clearances, Working with industry associations towards simplification of rules, a predictive policy regime and transition time for regulatory changes. Employees are regularly sensitised about the need to comply and educated about the compliance requirements of the role.

Operational Risks

Steel industry is capital-intensive and maintenance of critical assets is vital. industry is also prone to high proportion of fixed costs and volatility in the prices of raw materials and energy. Limitations or disruptions in the supply of raw materials could adversely affect the Company's profitability. Failure of critical information systems/ servers that control the Company's manufacturing plants may adversely impact business operations. Conventional maintenance practices may be inadequate to deliver highest standards of equipment reliability leading to unplanned interruptions of operational processes

key mitigation strategies focus on formulation and execution of advanced maintenance practices to improve plant availability and reliability. Enhancing in-house capability and leveraging from past learnings and expertise, Establishing sources of supplies from alternate geographies. We remain vigilant of the evolving pandemic situation and have taken several measures towards employee health and safety while ensuring continuity of business operations

Market Related Risks

Steel is a cyclical industry and excess volatility in the steel and raw material markets may adversely impact the Company's financial condition. Competition from substitute materials, or changes in manufacturing processes, may lead to a decline in product demand, resulting in loss of market share.

key mitigation strategies the only way to beat this cyclicity is by offering solutions. Development of value-added products and enhanced services and solutions Strengthening contractual agreements.

Safety Risk

We operate across multiple manufacturing locations and are subject to various stringent safety laws and regulations. Non-adherence to process and workforce safety requirements, safety laws and regulations may impact business continuity and reputation. COVID-19 contagion poses risk to workforce health and safety, and may lead to business disruptions.

key mitigation strategies We have created a strong safety governance structure and established a robust safety management system. Safety trainings are conducted to meet the requirements of employees, contractors and other relevant stakeholders as a part of safety competency and capability enhancement initiative. Standard operating procedures, relevant during and post COVID-19 operating environment, have been developed and disseminated across

the organisation. Adherence to these is being implemented and monitored vigilantly to ensure safe workplace.

Supply Chain Risk

The supply chain network is subjected to physical and environmental destructions, trade restrictions due to geopolitical tensions and disruptions at suppliers. The developing rail, road, port infrastructure, handling facilities and dependence on outsourced partners may lead to disruption of operations.

key mitigation strategies Scan Steels has a dedicated team focussed on managing its supply chain. We are continuously working towards diversification in sourcing and expanding our vendor base from other geographies to manage supply chain disruptions. Measures like logistics network optimisation, improving operational capacity at loading/unloading points and upgradation of existing facilities are being undertaken. We undertook several initiatives to mitigate supply chain disruption due to the pandemic. Licences were obtained to continue operations and minimise disruption in supply chain. Close coordination with trucking operators ensured smooth movement of raw materials and finished goods. We remain vigilant of the evolving pandemic situation as we closely monitor critical elements in our supply chain.

Financial Risk

Such Risks are related specifically to the processes, techniques and instruments utilized to manage the finances of the enterprise, as well as those processes involved in sustaining effective financial relationships with customers and third parties. The market volatility on prices of raw material, finished products, foreign exchange fluctuations impact the financials of our industry and the business, Substantial amount of debt on the balance sheet may have an adverse impact on the Company's ability to raise finance at competitive rates. Also Changes in assumptions

underlying the carrying value of certain assets may result in the impairment of such assets. Lower than planned cashflow generation due to pandemic resurgence coupled with slow pace of vaccination may affect the targeted improvement in credit ratings.

key mitigation strategies would be to Maximising operational cashflow, Terming out debt and refinancing debt with favourable covenants, integration of business planning and cashflow projections with liquidity management. Business decisions were pivoted to achieve cash neutrality in operations by reducing spend, managing working capital and reducing capital expenditures. Despite the challenges posed by COVID-19, we have been able to maintain the liquidity position. The progressive unlocking of economy has supported faster than expected recovery in steel and allied sector and a stronger cash flow position for us. However, we are keeping a close watch on pandemic resurgence as it may adversely affect the pace of economic recovery.

Other than above there is are also few other risks like Information Security Risk, Climate Change Risk, Community Risk etc. focused and tackled by the company.

Post COVID -19 Risk

Covid 19 pandemic impacted revenue of the Company and most of the manufacturing facilities of the Company were disrupted during the first Quarter of the Current Year, also, COVID-19 induced restrictions may affect demand and supply chains thereby impacting sales. Steel demand is also affected by trade barriers and protectionist policies. Fast-paced technological changes and shifting customer preferences may necessitate adoption of newer grades of steel and/or alternate materials. impact of the pandemic may move either side depending on the normalization of business and demand of products which will in turn affect the profit margin to the extent loss of its revenue.

key mitigation strategies

As domestic steel demand plunged due to COVID-19 induced lockdowns in Q1FY2021, sales were Disrupted. the Company continued to incur its revenue and fixed expenses during the Lock down period with the available resources with minimum capacity utilization and ability to maintain operations as the Company did not face any migrant labour issues because most of the Labours are from local areas/villages. Also, company has tried to maintain the liquidity position in spite of the negative impact due to fund flow stalled. The implementation of unlock measures in June 2020, resulted in faster than expected recovery for steel-intensive sectors. Initially the focus was on sales in non-containment zones and subsequently in improving domestic availability. With the improvement in demand for steel, the realisations improved sharply. We remain vigilant of the evolving pandemic situation and its impact on steel-intensive sectors.

In our endeavour to enhance footprint in India, we have built a diversified portfolio of product offerings for customers from a range of industries to counter slowdown in any one sector, region or segment. Dedicated marketing and sales teams service customers and build deep customer engagement by customising products, improving reliability and providing value added services. We have invested in building a strong marketing franchise with well-regarded brand and a large network of dealers and retailers across the country. This helps in increasing the stickiness of sales and reducing the exposure to business cycles.

Other key mitigation strategies

Apart from this there could be an oversupply position due to capacity expansion and setting up new projects in the steel industry and scarcity of raw material. Industry is highly labour intensive and is subject to stringent labour laws. Your Company has identified the major thrust areas

to concentrate on, which it believes to be critical to achievement of organizational goals. Company annually reviews the 'List of Risk Area' to identify potential business threats and suitable corrective actions are initiated. Confirmations of compliance with appropriate statutory requirements are obtained from the respective units/divisions. Corporate Governance Policy clearly laying down roles, duties and responsibilities of various entities in relation to risk management is in place.

MEDIUM - TERM AND LONG TERM STRATEGY

Our strategy planning process is influenced by the Vision, Mission and Values of the organisation, along with the strategic direction provided by the Senior Leadership Team. As part of the process, we examine both external and internal business environment and factor in potential risks and opportunities that could disrupt the industry. Materiality assessment provides insights to the changing needs of all our stakeholders. Our long-term strategies and annual business plans are formulated as an outcome of the integrated strategy planning process. The overall strategy and plans are cascaded down to individual divisions/ departments with clearly defined responsibilities across all employee levels.

The Company focuses on the following strategy to make its competitive position and progress of the company:

- 1) In-house research, reports of specialized agencies and interactions with all concerned to help track macro environment.
- 2) Internal meetings ensure multi-disciplinary stress testing and regular tracking of assumptions to proactively respond, due diligence review before dealing with uncertainties.
- 3) Compliance with norms through selecting right equipment, processes, competencies, inputs and Security arrangements like access monitoring system, vigilance, mock drills.

- 4) Executive committee & other unit/functional meetings closely monitor operational plans; cost optimization, inventory, collections & vendor credit Initiatives have been taken up.

As a response to the COVID-19-related impact, the Company is strategically focusing on:

- › Targeted cost-saving measures to recalibrate the cost base across all areas of operations and leveraging technology and digitalisation to drive value
- › Conservation and broadening of additional line of liquidity
- › Renewed thrust on technology and innovation to drive efficiencies

SEGMENT WISE PERFORMANCE:

The Company is engaged in only one segment viz. Steel Manufacturing and as such there is no separate reportable segments as per IND AS -108 "Operating Segment."

PRODUCTS AND MARKET PERFORMANCE

It is imperative that we keep pace with the growing needs of our customers, primarily those in the Automotive and Construction sectors. We aim to deliver enhanced benefits through customised services and solutions and value-added products throughout the customer's purchase journey.

EFFECT OF COVID 19 PANDEMIC ON THE COMPANY

The outbreak of COVID-19 has impacted the

economy and businesses not only in India, but all over the World. The rapid spread of the infection amongst the Indian population, forced Government of India to announce the imposition of nation-wide lockdown from March 25, 2020. This brought all logistics, businesses establishments and industries to a grinding halt except where the government had notified that essential services and process industries where the continuous operations of the plant facilities are important (including Integrated steel plants), are exempt from the lockdown measures and can continue to operate subject to the hygiene standards and social distancing norms being followed. However, the crisis of the pandemic continued throughout the year under review. In current phase the crisis has become severe with the onset of second wave of the pandemic.

The Company adopted safety and hygiene standards at shop floor and offices and implemented social distancing norms, work from home, workforce deployment plan, staggered shift timing for safety of the employees. The Company has instantly moved all essential activities to digital platform.

The revenue of the Company has been impacted and the most of the manufacturing facilities of the Company were disrupted during the First half of this year whereas the company continued to incurring its revenue and fixed expenses as well. However, the domestic steel demand improved from the second half with favourable policies, increased government spending and relaxed movement norms. We managed to deliver broad-based, market leading volume growth supported by our agile business model.

The Company is not facing any migrant labour issues as most of the labours are from local areas/villages. Our domestic dispatches in few territories have resumed. However, it is expected to improve gradually as and when markets are fully opened and logistics are improved in due course of time.

The Company's robust digital initiatives have enabled compliance of the internal financial

controls and reporting of the Company. The Company has been fulfilling its legal obligations as required for execution of the existing contracts / agreements, so there is no effect of the lockdown on the business. Outflows are monitored to have it minimised by cutting down on non-essential expenditure, renegotiating payment terms with vendors, improving working capital management and reducing capex.

Company is engaged in manufacturing of the basic essential TMT Rod product and demand for the same is expected to increase gradually with lockdown relaxations and measures to be taken to curb COVID 19 Impact in future.

This is demonstrated in shareholder returns, high credit ratings, governance processes and an entrepreneurial performance focused work environment. Additionally, our customers have benefited from high quality products delivered at extremely competitive prices.

The essence of Corporate Governance lies in promoting and maintaining integrity, transparency and accountability in the management's higher echelons. The demands of Corporate Governance require professionals to raise their competence and capability levels to meet the expectations in managing the enterprise and its resources effectively with the highest standards of ethics. It has thus become crucial to foster and sustain a culture that integrates all components of good governance by carefully balancing the complex inter-relationship among the Board of Directors, Audit Committee, Finance, Compliance and Assurance teams, Auditors and the senior management. Our employee satisfaction is reflected in the stability of our senior management, low attrition across various levels and substantially higher productivity.

Over the years, we have strengthened governance practices. These practices define the way business is conducted and value is generated. Stakeholders' interests are taken into account, before making any business decision.

We believe, Corporate Governance is not just a destination, but a journey to constantly improve sustainable value creation. It is an upward-moving target that we collectively strive towards achieving. Our multiple initiatives towards maintaining the highest standards of governance are detailed in the following pages.

The Corporate Governance framework of the Company is based on the following broad practices:

- a) Engaging a diverse and highly professional, experienced and competent Board of Directors, with versatile expertise in industry, finance, management and law;
- b) Deploying well defined governance structures that establishes checks and balances and delegates decision making to appropriate levels in the organisation;
- c) Adoption and implementation of fair, transparent and robust systems, processes, policies and procedures;
- d) Making high levels of disclosures for dissemination of corporate, financial and operational information to all its stakeholders;
- e) Having strong systems and processes to ensure full and timely compliance with all legal and regulatory requirements and zero tolerance for non-compliance.

Board membership criteria

Matching the needs of the Company and enhancing the competencies of the Board are the basis for the Nomination and Remuneration Committee to select a candidate for appointment to the Board. The nomination and remuneration committee works with the entire Board to determine the appropriate characteristics, skills and experience required for the Board as a whole and for individual members. Members are expected to possess the required age, qualifications, integrity, expertise and experience, positive attributes, independence, relationships, diversity of gender, background, professional skills and personal qualities required to operate successfully for the position. They should also possess deep expertise and insights in sectors/areas relevant to the Company, and ability to contribute to the Company's growth.

The age limit for managing director/executive director/independent director is 70 years and non-executive director is 75 years. A director's term may be extended at the discretion of the Board/committee beyond the age of 70 and 75 years with shareholder approval by passing a special resolution based on the explanatory statement annexed to the Notice for such motion indicating the justification for extension of appointment beyond 70 and 75 years.

Provided that in case of Whole-time Director/Managing Director / Manager where no such special resolution is passed but votes cast in favour of the motion exceed the votes, if any, cast against the motion and the Central Government

is satisfied, on an application made by the Board, that such appointment is most beneficial to the company, the appointment of the person who has attained the age of seventy years may be made.

The Board members are expected to rigorously prepare for, attend and participate in all board and applicable committee meetings. Each member is expected to ensure that their other current and planned future commitments do not materially interfere with their responsibilities with us.

Directors' Induction and Selection of new directors

The provision of an appropriate induction programme for new Directors and ongoing training for existing Directors is a major contributor to the maintenance of high Corporate Governance standards of the Company. The Whole Time Director & CFO and the Company Secretary are jointly responsible for ensuring such induction. The Board is responsible for the selection of new directors. The Board delegates the screening and selection process to the nomination and remuneration committee, which consists exclusively of independent directors. The nomination and remuneration committee makes recommendations to the Board on the induction of new directors. After getting appointed, the Directors receive a formal letter of appointment which inter alia explains the role, functions, duties and responsibilities expected from him as a Director of the Company. The Director is also explained in detail the compliances required to be made under the Companies Act and the SEBI

(Listing Obligations and Disclosure Requirements) Regulations, 2015 (hereinafter referred to as "SEBI Regulations, 2015") and other relevant regulations.

Familiarization programme for Board Members

The Company believes that the Board be continuously empowered with the knowledge of the latest developments in the Company's business and the external environment affecting the industry as a Whole. To this end, The Board members were given presentations on the global business environment, as well as all business areas of the Company including business strategy, risks opportunities, they are also provided with necessary documents/brochures, reports and internal policies to enable them to familiarize with the Company's procedures and practices. The management provides such information and training either at the meeting of Board of Directors or otherwise.

Quarterly updates on relevant statutory changes and landmark judicial pronouncements encompassing important laws are regularly circulated to the Directors. Site visits to various plant locations are organized for the Directors to enable them to understand the operations of the Company.

The Details of such Familiarizations Programmer for Directors are posted on the Website of the Company and can be accessed at www.scansteels.com - Investor Relations Segment.

Membership term

The Board constantly evaluates the contribution of the members, hence, the Directors of the Company (except Nominee Directors if any.) are appointed by the shareholders at General Meetings and Company periodically shares updates with the shareholders about appointment /re-appointment consistent with applicable status. The current law in India mandates the retirements

of two-third of the total non-independent directors (who are liable to retire by rotation) every year, accordingly, All Executive Directors, including Non-Executive Chairman, are subject to retirement by rotation and at every Annual General Meeting, 1/3rd of such Directors as are liable to retire by rotation, if eligible, generally offer themselves for re-election, in accordance with the provisions of Section 152 of the Companies Act, 2013 and that of the Articles of Association of the Company.

Executive directors are appointed by the shareholder for a maximum period of five years, but are eligible for re-appointment upon completion of their term. The Executive Directors on the Board serve in accordance with the terms of their contracts of service with the Company.

As per Section 149(10) of the Companies Act, 2013, an independent director shall hold office of a term of up to five consecutive years on the Board of the Company and will be eligible for re-appointment on the passing of a special resolution by the Company read with Section 149(11) of the Companies Act, 2013.

Performance evaluation

In compliance with the Section 134(3) (p) and Section 178 (2) of the Companies Act, 2013 read with Regulation 17 (10) , 19 (4) and Part D of Schedule II of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the Company has devised a Policy for performance evaluation of Independent Directors, Board, Committees and other individual Directors which includes criteria for performance evaluation of the non-executive directors and executive directors and the policy has been framed / approved by the Nomination and Remuneration Committee and can be accessed from the website of the Company at www.scansteels.com - Investor Relations Segment.

The Board carried out an annual performance evaluation of its own performance, the individual

Directors, as well as the evaluation of the working of the Committees of the Board. The performance evaluation of the Non-Independent Directors, Board / Chairman was carried out by the Independent Directors. The performance evaluation of the Independent Directors was carried out by the entire Board in compliance with the Companies Act, 2013 which includes performance of the directors; and) fulfillment of the independence criteria as specified in these regulations and their independence from the management. The directors who are subject to evaluation shall not participate.

The performance evaluation of all the Directors/ its committees and / or Board as a whole was also carried out by the Nomination and Remuneration Committee and NRC also review its implementation and compliance.

The purpose of the Board evaluation is to achieve persistent and consistent improvement in the Governance of the Company at the Board level with the participation of all concerned in an environment of harmony. The Board acknowledges its intention to establish and follow “best practices” in Board governance in order to fulfill its fiduciary obligation to the Company. The Board believes the evaluation will lead to a closer working relationship among the Board members, greater efficiency in the use of the Board’s time and increased effectiveness of the Board as a governing body.

A structured questionnaire was prepared after taking into consideration inputs received from the Directors, covering various aspects of the Board’s functioning such as adequacy of the composition of the Board and its Committees, Board culture, execution and performance of specific duties, obligations and governance. A separate exercise was carried out to evaluate the performance of individual Directors including the Chairman of the Board, who were evaluated on parameters such as level of engagement

and contribution, independence of judgment, safeguarding the interest of the Company and its minority shareholders etc.

The Observations of board evaluation is carried out for the year. There were not any previous year’s observations on which Board needs to take any actions to resolve them. Further, in current year also Board Performance was evaluated on following criteria and it seems that no immediate Proposed actions to be taken regarding the same.

Some of the key criteria for performance evaluation, as laid down by the Company are as follows-

Performance evaluation of Directors:

- Contribution at Board / Committee meetings
- Guidance / Support to Management outside Board / Committee Meetings

Performance evaluation of Board and Committees:

- Board structure and composition
- Degree of fulfillment of key responsibilities
- Establishment and delineation of responsibilities to Committees
- Effectiveness of Board Processes, Information and Functioning
- Board Culture and Dynamics
- Quality of relationship between the Board and Management
- Efficacy of communication with External Stakeholders
- Committees – strengths and areas of improvement

The Directors expressed their satisfaction with the evaluation process.

Succession planning

The nomination and remuneration committee works with the Board on the leadership succession plan, and prepares contingency plans for succession in case of any exigencies.

INDEPENDENT DIRECTORS

Definition

The Companies Act, 2013 and the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 defines an 'Independent Director' as a person who is not a promoter or employee or one of the Key Managerial Personnel of the Company or its subsidiaries. The Laws also state that the person should not have a material pecuniary relationship or transactions with the Company or its subsidiaries, apart from receiving remuneration as an independent director. We abide by these definitions of independent director.

Selection of Independent Directors

In Compliance with Rule – 6 of Companies Appointment and Qualification of Directors Fifth Amendment Rules 2019 and considering the requirement of skill sets on the Board, eminent people having an independent standing in their respective field/profession, and who can effectively contribute to the Company's business and policy decisions are considered by the Nomination and Remuneration Committee, for appointment, as Independent Directors on the Board. The Committee, inter alia, considers qualification, positive attributes, area of expertise and number of Directorships and Memberships held in various committees of other companies by such persons in accordance with the Company's Policy for Selection of Directors and determining Directors' independence. The Board considers the Committee's recommendation, and takes appropriate decision. Every Independent Director, at the first meeting of the Board in which he participates as a director and thereafter at the first meeting of the Board in every financial year, gives a declaration that he meets the criteria of independence as provided under law.

A statement, in connection with fulfilling the criteria of independence and directorships as per the requirement of the provisions of the Companies

Act, 2013 ("the Act") and the Regulation 25 of SEBI LODR received from each of the Independent Directors, is disclosed in the Board's Report. Your Company had also issued formal appointment letters to all the Independent Directors (including terms and conditions of appointment of Independent Directors) in the manner provided under the Act. As per Regulation 46 of SEBI Listing Regulations and Section 149 read with schedule IV of the Act, Terms and conditions for appointment of Independent Directors are available on the website of the Company and can be accessed at www.scansteels.com - Investor Relations Segment.

Code of Conduct

The Company has prescribed Code of Conduct for its directors and senior management. The Code is applicable to Non-executive Directors including Independent Directors to such extent as may be applicable to them depending on their roles and responsibilities. The Code gives guidance and support needed for ethical conduct of business and compliance of law. The Code reflects the values of the Company viz. - Customer Value, Ownership Mind-set, Respect, Integrity, One Team and Excellence.

A copy of the Code has been put on the Company's website (www.scansteels.com). The Code has been circulated to Directors and Management Personnel, and its compliance is affirmed by them annually.

The declaration from the Whole- Time Director stating that as on 31 March 2021 all the board members and the senior management personnel of the Company have adhered to the code of conduct for FY 2021 and the same has been included in this report duly signed by the Whole-Time Director of the Company.

III. Performance Evaluation criteria for Independent Directors

Board Evaluation Policy has been framed by the Nomination and Remuneration Committee (NRC) and approved by the Board and subsequently amended by the Board as and when needed. This policy has been framed in compliance with the provisions of section 178(2), 134(3) (p) and other applicable provisions, if any, of the Companies Act, 2013 and Regulation 17(10), 19(4) and part D of Schedule II of the SEBI (LODR Regulations), as amended from time to time.

The Company adopted the following criteria to carry out the evaluation of Independent Directors, which is in terms of the provisions of the Companies Act, 2013 and the SEBI (LODR Regulations);

- The Nomination and Remuneration Committee (NRC) shall carry out evaluation of every Director's Performance.
- In addition, performance evaluation of the Independent Directors shall be done by the entire Board, excluding the director being evaluated by rating their performances and fulfillment of Independence Criteria as per SEBI (LODR) Regulations, 2015. This is to be done on an annual basis for determining whether to extend or continue the term of appointment of the independent director.

The Evaluation process of Independent Directors and the Board will consist of two parts;

- Board Member Self Evaluation; and
- Overall Board and Committee Evaluation.

In the Board Member Self Evaluation, each Board member is encouraged to be introspective about his/her personal contribution/ performance/ conduct as director with reference to a questionnaire provided to them. Copies of the evaluation forms as applicable will be distributed to each Board Member. Board members shall complete the forms and return them to the Company Secretary or Board nominee or the consultant, as may be informed.

The Company Secretary or Board nominee or the consultant will tabulate the Forms. The Tabulated Report would be sent to all Board Members for evaluation and if any directors disagree with the self- evaluated results, he/she will suitably intimate the Chairman of the Board, else the same will be deemed to have been accepted.

The individually completed forms will be preserved by the Company Secretary and the Tabulated Report would be presented to the Board and NRC for evaluation.

Apart from the above, the NRC will carry out an evaluation of every director's performance. For this purpose, the NRC would review the Tabulated Report. The NRC would provide feedback to the Board on its evaluation of every director's performance and based on such feedback, the Board will be recommended appointments, re-appointments and removal of the non-performing Directors of the Company.

IV. Remuneration policy

The remuneration of the Whole-time/Executive Directors and Senior Executive Officers is decided by the Board based upon the recommendations of the Nomination and Remuneration Committee, subject to the approval of the Company in

general meeting, which inter-alia is based on the criteria such as industry benchmarks, the Company's performance, and the performance of the individual concerned. Remuneration of the Executives and employees largely consists of basic salaries, and perquisites and incentives if any. The component of the total remuneration varies from grades and is governed by the industry pattern, qualifications, experience and the responsibilities carried on by the individual employee concerned. The objectives of the remuneration policy are to motivate the deserving employee in improving their performance, along with recognizing their contributions, retain best talent in the organization and record the merits.

The Policy inter alia provides for the following:

- (a) attract, recruit, and retain good and exceptional talent;
- (b) list down the criteria for determining the qualifications, positive attributes, and independence of the directors of the Company;
- (c) ensure that the remuneration of the directors, key managerial personnel and other employees is performance driven, motivates them, recognises their merits and achievements and promotes excellence in their performance;
- (d) motivate such personnel to align their individual interests with the interests of the Company, and further the interests of its stakeholders;
- (e) ensure a transparent nomination process for directors with the diversity of thought, experience, knowledge, perspective and gender in the Board; and
- (f) Fulfil the Company's objectives and goals, including in relation to good corporate governance, transparency, and sustained long-term value creation for its stakeholders.

FINANCIAL STATEMENTS

2020-21

Independent Auditors' Report

To the Members of Scan Steels Limited Report on the Financial Statements Opinion

We have audited the financial statements of **Scan Steels Limited** ("the Company"), which comprise the Balance Sheet as at 31st March 2021, and the Statement of Profit and Loss, Statement of Changes in Equity and Statement of Cash Flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2021, its Profit, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under

section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Sl.No.	Key audit Matter	Auditor's Response
1.	<p>Application of Ind AS 115 "Revenue from Contract with Customers") involves certain key judgements relating to identification of distinct performance obligations, determination of transaction price of the identified performance obligations, the appropriateness of the basis used to measure revenue recognized over a period. Disclosures which involve collation of information in respect of disaggregated revenue and periods over which the remaining performance obligations will be satisfied subsequent to the balance sheet date.</p> <p>Refer Notes 1.5 and 1.7 to the Financial Statements.</p>	<p>Principal Audit Procedures</p> <p>Our audit approach consisted testing of the design and operating effectiveness of the internal controls and substantive testing as follows:</p> <ul style="list-style-type: none"> ▪ Evaluated the design of internal controls relating to implementation of the new revenue accounting standard. ▪ Selected a sample of continuing and new contracts, and tested the operating effectiveness of the internal control, relating to identification of the distinct performance obligations and determination of transaction price. We carried out a combination of procedures involving enquiry and observation, reperformance and inspection of evidence in respect of operation of these controls. ▪ Tested the relevant information technology systems' access and change management controls relating to contracts and related information used in recording and disclosing revenue in accordance with the new revenue accounting standard. ▪ Selected a sample of continuing and new contracts and performed the following procedures: <ul style="list-style-type: none"> ▪ Read, analyzed and identified the distinct performance obligations in these contracts. ▪ Compared these performance obligations with that identified and recorded by the Company. ▪ Considered the terms of the contracts to determine the transaction parties including any variable consideration to verify the transaction price used to compute revenue and to test the basis of estimation of the variable consideration. ▪ Sample in respect of revenue recorded for time and material contracts were tested using a combination of approved time sheets including customer acceptances, subsequent invoicing and historical trend of collections and disputes. ▪ In respect of samples relating to fixed price contract progress towards satisfaction of performance obligation used to compute recorded revenue was verified with actual and estimated efforts from the time recording and budgeting systems. We also tested the access and change to management controls relating to these systems. ▪ Sample of revenues disaggregated by type and service offering was tested with the performance obligations specified in the underlying contracts. ▪ Performed analytical procedures for reasonableness of revenues disclosed by type and service offerings. ▪ We reviewed the collation of information and the logic of the report generated from the budgeting system used to prepare the disclosure relating to the periods over the remaining performance obligations will be satisfied subsequent to the balance sheet date. ▪ The standard is applied retrospectively and the cumulative effect of applying this standard is recognized. The adoption of Ind AS 115 did not have any significant impact for the company.

<p>2.</p>	<p>Evaluation of uncertain tax positions</p> <p>The company has material uncertain tax positions including matters under dispute which involves significant judgement to determine the possible outcome of these disputes.</p> <p>Refer Note 25 to the Financial Statements.</p>	<p>Principal Audit Procedures</p> <p>Obtained details of completed tax assessments and demands for the year ended March 31, 2021 from management. We involved our internal experts to challenge the management's underlying assumptions in estimating the tax provision and the possible outcome of the disputes. Our internal experts also considered legal precedence and other rulings in evaluating management's position on these uncertain tax positions. Additionally, we considered the effect of new information in respect of uncertain tax positions as at April 1, 2020 to evaluate whether any change was required to management's position on these uncertainties.</p>
<p>3</p>	<p>Contingent Liabilities against litigation and claims</p>	<p>We have obtained an understanding of the company's internal instructions and procedures in respect of estimation and disclosure of contingent liabilities and adopted the following audit procedures:</p> <ul style="list-style-type: none"> ▪ Understood and tested the design and operating effectiveness of control established by the management for obtaining all relevant information for pending litigation cases. ▪ Discussed with the management any material developments and latest status of legal matters. ▪ Read various correspondences and related documents pertaining to litigation cases and relevant external legal opinions obtained by the management and performed various substantive procedures on calculation supporting the disclosure of contingent liabilities. ▪ Examined management's judgment and assessment those matters that are not disclosed as the probability of material outflow is considered to be remote. ▪ Reviewed the adequacy and completeness of disclosures. <p>Based on the above procedures performed estimation and disclosure of contingent liabilities are considered to be adequate and reasonable.</p>
<p>4.</p>	<p>a) Disclosure for COVID 19</p> <p>The Company has assessed the potential impact of COVID -19 and no impact is expected on its ability to continue as a going concern and meeting its obligation since the majority of the company's existing arrangement in production and sales is not affected.</p>	<p>We have obtained an understanding of the requirement as per ICAI guideline and SEBI circular dated 20 May,2020 relating to COVID -19 and following audit procedure were adopted.</p>

b) Modified Audit Procedure because of COVID-19

Because of extended period of lockdown in the country due to pandemic and consequent travel restrictions, audit in the operating locations of the company could not be undertaken. Accordingly, the audit procedure required modification to facilitate remote location audit.

Discussed with the management to understand the business and assessed if there was any impact on production, sales, capital projects and inventory management.

Assessed the impact on property, plant and equipment and effect on on going contracts and arrangement. Based on the audit procedures involved, we found assessment made by the management in relation to impact as reasonable.

To complete the audit from a remote location within a prescribed time schedule a road map was prepared and discussed with the company. The company provided us access to their accounting system for verification of books of accounts and various documents backed by tele conference, video conference, email and other communication systems to complete the audit.

We also verified the scanned document produced to us from time to time as audit evidences.

Our observations were addressed through regular video conferences and scanned documents.

We also relied upon and performed audit procedures in accordance with guidance issued by the Institute of Chartered Accountants of India for the audit and accounting procedures under COVID situation.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis of Board's Report including Annexures to board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or

otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, (changes in equity) and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the

Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Report on Other Legal and Regulatory Requirements

As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the **Annexure-A** a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

As required by Section 143(3) of the Act, we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books and proper returns adequate for the purposes of our audit have been received from the branches not visited by us.
- c) The Balance Sheet, the Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
- d) In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- e) On the basis of the written representations received from the directors as on 31st March, 2021 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2021 from being appointed as a director in terms of Section 164 (2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness

of such controls, refer to our separate Report in “**Annexure B**”.

g) With respect to the other matters to be included in the Auditor’s Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements – Refer **Note 25** to the financial statements;

- ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
- iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

Annexure-A to the Independent Auditors' Report (Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

The Annexure referred to in our Independent Auditor's Report to the members of **Scan Steels Limited** (the Company) on the Ind AS financial statements for the year ended March 31, 2021, we report that:

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
- (b) The Company has a regular programme of physical verification of its fixed assets, by which all fixed assets are verified in a phased manner over a period of two years. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to such program, a portion of fixed asset has been physically verified by the management during the year and no material discrepancies were noticed on such verification.
- (c) The deed of immovable properties are held in the name of the Company in almost all cases excepting for
 - ✓ Freehold land of 7.68 Acres situated in Village Raiberna and Laing, Sundergarh, Odisha which is in the name of M/s. Shristi Ispat Limited, the company which was merged in to this company during 2005.
 - ✓ Land of 24.820 Acres occupied, by the company situated in Village-Kudithini, Bellary, Karnataka, on long term lease basis.
 - ✓ Land of 7.95 Acres occupied, by the company situated in Village-Raiberna and Laing, Sundergarh, Odisha, which is in the name of one of the relative of Key Managerial Personnel, on long term lease basis.
 - ✓ Land area of Acres 5.000 occupied, by the company situated in Village-Laing, Sundergarh, Odisha, on long term lease basis.
- (ii) a. The inventory has been physically verified by the management during the year. In our opinion, the frequency of such verification is reasonable.
- b. The discrepancies noticed on the aforesaid verification between the physical stocks and book records were not material.
- (iii) According to the information and explanations given to us, no loan has been granted by the Company (secured/ unsecured loans) to companies/ firms/ limited liability partnerships or other parties covered in the register maintained under section 189 of the Act. Accordingly reporting on interest and its repayment are not applicable.
- (iv) In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of section 185 and 186 of the Act in respect of grant of loans, making investments and providing guarantees and securities, as applicable.
- (v) In our opinion and according to the information and explanations given to us, the Company has not accepted any deposits from the public and complied in accordance with Chapter-VI (section 73 to 76) of the Act.
- (vi) We have reviewed the books of account maintained by the Company pursuant to the rules prescribed by the Central Government for maintenance of cost records under sub-section (1) of section 148 of the Act, and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. However, we have not made a detailed examination of the records.

(vii)(a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, amounts deducted/accrued in the books of account in respect of undisputed statutory dues including provident fund, employees' state insurance, income-tax, sales tax, duty of customs, duty of excise, goods and services tax, cess and other material statutory dues have been generally regularly deposited during the year by the Company

with the appropriate authorities. There were no undisputed statutory dues payable as at March 31, 2021 which were outstanding for a period of more than six months from the date, they become payable.

Annexure -B to the Independent Auditors' Report

(Referred to in paragraph 2 (f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Scan Steels Limited** ("the Company") as of March 31, 2021 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over

Financial Reporting (the "Guidance Note") and the Standards on Auditing, (the 'Standards') issued by ICAI and deemed to be prescribed under section 143 (10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind-AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the Ind AS financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

**NOTES TO
FINANCIAL STATEMENTS**

2020-21

Notes forming part of Financial Statements

Note -1 SIGNIFICANT ACCOUNTING POLICIES

1.1 Company Overview

M/s Scan Steels Limited is a public limited company domiciled in India. The company has its listings on the BSE Limited in India. The company is engaged in manufacturing of steel products and in generation of power for captive consumption.

1.2 Basis of Preparation

(i) Compliance with Ind AS :

The financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act. The financial statements up to year ended 31 March 2016 were prepared in accordance with the accounting standards notified under Companies (Accounting Standard) Rules, 2006 (as amended) and other relevant provisions of the Act.

(ii) Historical Cost Convention :

The financial statements have been prepared and presented on accrual basis and under the historical cost convention, except for the following:

- a) certain financial assets and liabilities and contingent consideration that is measured at fair value;
- b) Assets held for sale – measured at fair value less cost to sell;
- c) Defined benefit plans – plan assets measured at fair value; and share-based payments.

1.3 Use of Estimates :

- (i) The preparation of the financial statements are in conformity with Indian Accounting

Standards (Ind AS) that requires management to make judgment estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities and disclosures relating to contingent liabilities as at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and action uncertainty above these consumptions and estimates could not in the outcomes requiring a material adjustments to the carrying amounts of assets and liabilities in future periods.

- (ii) Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the Management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.
- (iii) Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact and that are believed to be reasonable under the circumstances.
- (iv) All the assets and liabilities have been classified as current and non-current as per the company's normal operating cycle of twelve months and other criteria set out in Schedule-III of the Companies Act, 2013.

1.4 Property, Plant and Equipment, Intangible Assets and Capital Work-in-Progress

i. Property, Plant and Equipment

- a) Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.
- b) The whole of the finance charges paid on assets acquired under Hire Purchase Scheme are considered as "Unmatured finance charges" under the head "Other Current Assets" in the Balance sheet. Subsequently, at the end of the year the portion of finance charges is transferred to profit & loss account on the basis of the number of instalments due during the year.

ii Depreciation methods, Estimated useful lives and Residual value

- a) Depreciation is provided on the straight line method applying the useful lives as prescribed in part C of Schedule II to the Companies Act, 2013.
- b) Depreciation on assets purchased/acquired during the year is charged from the date of purchase of the assets.
- c) An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.
- d) Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss within other gains/(losses).

iii. Intangible Assets :

- a) Intangible assets are recorded at the consideration paid for acquisition of such assets and claimed at cost less accumulated amortization and impairment.
- b) Amortisation methods and periods
The entity amortises intangible assets with

a definite useful life using the straight-line method.

iv. Capital Work-in-Progress

Capital Work-In-Progress comprises of the cost of Fixed Assets that are not yet ready for their intended use at the reporting date.

1.5 Revenue Recognition :

- i. Revenue is measured at fair value of consideration received or receivable. Amount disclosed as revenue are net of returns, trade allowances, rebates, Goods and services tax and amounts collected on behalf of third parties.
- ii. It recognises revenue when the amount of revenue can be reliably measured and it is probable that future economic benefits will flow to the company.
- iii. The company adopts the following criteria for recognizing the revenue:-
 - a) Sale of goods is recognized when all the significant risks and rewards of ownership of the goods have been passed to the buyer, usually on delivery of the goods.
 - b) Sale of stock in trade is recognized when the goods are dispatched to the customers.

1.6 Inventories :

Raw materials, Stores and Spares, Semi-finished Goods, Traded and Finished Goods

- a) Raw materials, components and stores & spares are valued at cost following FIFO method. Cost includes purchase price, freight, handling charges and other directly attributable costs to bring the material to its present location and are net of duties and taxes wherever applicable.
- b) Semi-finished goods, finished goods and traded goods are valued at lower of cost or Net realizable value. Cost includes direct materials, labour and a proportion of manufacturing overheads based on average cost of production.

- c) Cost of finished goods inside the plant is exclusive of GST
- d) Net realizable value is the estimated selling price in the ordinary course of business less estimated costs necessary to make the sale.

1.7 Financial Instruments

Initial Recognition

Financial assets and liabilities are recognised when the company becomes a party to the contractual provisions of the instruments. Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial assets or financial liability. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognised in Statement of profit and loss.

Subsequent Recognition

i. Financial Assets

a) Measured at amortised cost:

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets to collect contractual cash flows and the contractual terms of the financial assets give rise on specified dates to cash flow that are solely payments of principal and interest on the principal amount outstanding.

b) Measured at fair value through other comprehensive income:

Financial assets are measured at fair value through other comprehensive income if

these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows on specified dates to cash flow that are solely payments of principal and interest on the principal amount outstanding and selling financial assets.

c) Measured at fair value through profit or loss:

Financial assets are measured at fair value through profit or loss unless it is measured at amortised cost or fair value through other comprehensive income on initial recognition.

d) Equity instruments:

An equity instrument is a contract that evidences residual interest in the assets of the company after deducting all of its liabilities. Equity instruments are recognised at the proceeds received net off direct issue cost.

All equity instruments classified under financial assets are subsequently measured at fair value. Equity instruments which are held for trading are measured at FVTPL.

ii. Financial Liabilities

a) Financial liabilities are measured at amortised cost using effective interest method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the statement of profit and loss.

b) Interest bearing loans and borrowings are subsequently measured at amortised cost using effective interest rate method. Gain and losses recognised in profit and loss when the liabilities are derecognised.

iii De-Recognition

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it

transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognized from the Company's Balance Sheet when the obligation specified in the contract is discharged or cancelled or expires. The entity transfers the difference between the carrying amount of Financial Liability (Bank Loan) and the consideration paid in full settlement to wave off the loan to profit and loss account.

1.8 Borrowings :

- i. Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.
- ii. Preference shares, which are mandatorily redeemable on a specific date, are classified as liabilities. The cost on these preference shares are recognised in profit or loss as finance costs.
- iii. Borrowings are withdrawn from the balance sheet when obligations specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party

and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in Statement of profit and loss as other gains/(losses).

- iv. Borrowings are classified as current liabilities unless the entity has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current and if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

1.9 Employee Benefits :

(i) Short-term employee benefit obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

All Short term employee benefits such as salaries, incentives, special award, medical benefits which fall due within 12 months of the period in which the employee renders related services, which entitles him to avail such benefits and non accumulating compensated absences (like maternity leave and sick leave) are recognized on an undiscounted basis and charged to Statement of Profit and loss.

(ii) Post-employment obligations

“The entity operates the following post-employment schemes:

- (a) defined benefit plans such as gratuity, Superannuation; and
- (b) defined contribution plans such as provident fund.”

Provident fund obligations

Contribution to the provident fund, which is a defined contribution plan, made to the Regional Provident Fund Commissioner is charged to the Statement of Profit and loss on accrual basis.

Gratuity and Superannuation obligations

The company has not made any provision with regard to gratuity and superannuation benefits on actuarial basis in compliance to the provisions laid in accounting standard on accounting for retirement benefits. However the company has taken a group gratuity policy with life insurance corporation of india in respect of retirement benefits of its employees, the annual premium of which is charged to the Statement of Profit and Loss.

(iii) Bonus plans

The entity recognises a liability and an expense for bonus. It recognises a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

1.10 Foreign currency translation :**(i) Functional and presentation currency**

Each item included in the financial statements are measured using the currency of the primary economic environment in which the entity operates (‘the functional currency’). The financial statements are presented in Indian rupee (INR), which is functional and presentation currency.

(ii) Transactions and balances

Foreign currency transactions i.e. Revenue, expense and cash-flow items denominated in foreign currencies are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in profit or loss.

(iii) Adjustments for foreign exchange differences

Foreign exchange differences regarded as an adjustment to borrowing costs are presented in the statement of profit and loss, within finance costs. All other foreign exchange gains and losses are presented in the statement of profit and loss on a net basis within other gains/(losses).

1.11 Income Tax :

- i. The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.
- ii. The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the company and its subsidiaries and associates operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis

- of amounts expected to be paid to the tax authorities.
- iii. Current income tax expense comprises taxes on income from operations in India and is determined in accordance with the provisions of the Income Tax Act, 1961.
 - iv. Deferred income tax is provided in full, using the balance sheet approach, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.
 - v. Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.
 - vi. Deferred tax assets and liabilities are set off when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are set off where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.
 - vii. Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.
- 1.12 Trade and Other Payables :**
- These amounts represent liabilities for goods and services provided to the entity prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 90 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.
- 1.13 Purchases :**
- Purchase of materials is recognized on dispatch of such goods by the suppliers based on certainty of receipt of such goods at the factory. It is shown net of GST credit wherever applicable.
- 1.14 Cash and Cash Equivalents :**
- For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of twelve months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts.
- 1.15 Borrowing Costs :**
- a) General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time

that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

- b) Other borrowing costs are expensed in the period in which they are incurred.

1.16 Segment Reporting :

- (i) The Company is primarily engaged in the business of manufacturing of steel and power for captive consumption and Trading of steel products. The Company has identified two primary business segments namely Manufacturing and trading, which in context of Indian Accounting Standard 108 on "Operating Segments" constitute reportable segment. However, as the turnover of trading segment is less than 10% of the total revenue, no such reporting is required.
- (ii) The company's products are dispatched from plants located at Rajgangpur (Odisha), and Bellary (Karnataka) to various parts of the country and considering the customer base which is wide spread all over the country, no such geographical differentiation can be done for presenting the information.

1.17 Provisions & Contingent Liabilities:

- a. A provision is recognized if, as a result of a past event, the Company has a present legal obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by the best estimate of the outflow of economic benefits required to settle the obligation at the reporting date. Where no reliable estimate can be made, a disclosure is made as contingent liability. Contingent assets are not recognized.
- b. Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined

by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

- c. Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense. The measurement of provision for restructuring includes only direct expenditures arising from the restructuring, which are both necessarily entailed by the restructuring and not associated with the ongoing activities of the entity.

1.18 Fair value of Investments

Investment in quoted equity instruments are measured at fair value through other comprehensive income on the basis active bid market prices and accordingly the changes in fair value has been recognised in the retained earnings as at the date of transition and subsequently in the Other Comprehensive income.

1.19 Contributed Equity :

- a. Equity shares are classified as equity.
- b. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

1.20 Rounding of Amounts :

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakhs as per the requirement of Schedule III, unless otherwise stated.

Note -30 Recognition of Corporate Guarantee as Financial Liability

Financial guarantee is a contractual right of the lender to receive cash from the guarantor, and a corresponding contractual obligation of the guarantor to pay the lender, if the borrower defaults. The contractual right and obligation exist because of a past transaction or event (assumption of the guarantee), even though the lender's ability to exercise its right and the requirement for the guarantor to perform under its obligation are both contingent on a future act of default by the borrower. A contingent right and obligation meet the definition of a financial asset and a financial liability, even though such assets and liabilities are not always recognised in the financial statements. Based on the measurement principles laid down under Ind AS 109 "Financial Instrument :Recognition and Measurement", the fair value of all those financial guarantee contracts are reasonably below to the materiality threshold limit set by the company. Accordingly the entity has made appropriate disclosure in Note -25 without additionally recognising any financial assets or liability.

(ii) Fair value Hierarchy:

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are

(a) recognised and measured at fair value, and

(b) measured at amortised cost and for which fair values are disclosed in the financial statements.

To provide an indication about the reliability of the inputs used in determining fair value, the company has classified its financial instruments into three levels prescribed under the Ind AS 113 "Fair Value Measurements". An explanation of each level follows underneath the table.

Level 1 : This hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments and mutual funds that have quoted price. The fair value of all equity instruments (including bonds) which are traded in the stock exchange is valued using the closing price as at the reporting period.

Level 2 : Fair value of financial instruments that are not traded in an active market (for example, traded bonds, over the counter derivatives) is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument is observable, the instrument is included in level 2.

Level 3 : If one or more of the significant inputs is not based on observable data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration and indemnification assets.

(iii) As per Ind AS 107 “Financial Instrument:Disclosure”, fair value disclosures are not required when the carrying amounts are reasonably approximate to the fair value. Accordingly fair value disclosures have not been made for the following financial instruments:-

1. Trade receivables
2. Cash and cash Equivalent
3. Loans and advances
4. Borrowings
5. Trade Payables
6. Capital Creditors
7. Other payables

Note -34 : Financial risk management

The company’s few portion of activities are exposed to variety of financial risks i.e. market risk, credit risk and liquidity risk. The company’s primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The company’s financial instruments (excluding receivables from related parties) are influenced mainly by the individual characteristics of each customer. The company’s exposure to credit risk is the concentration of risk from the top few customers and the demographics of the customers.

This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the impact of hedge accounting in the financial statements

Risk	Exposure arising from	Measurement
Credit risk	Cash and cash equivalents, trade receivables and other financial instruments, financial assets measured at amortised cost.	Ageing analysis Credit rating
Liquidity risk	Borrowings and other liabilities	Rolling cash flow forecasts
Market risk- foreign exchange	Future commercial transactions recognised financial assets and liabilities not denominated in Indian Rupees (INR)	Cash flow forecasting Sensitivity analysis
Market risk- security prices	Investments in equity securities	Sensitivity analysis

(A) Credit risk

Credit risk refers to the risk of default on its obligation by the counter party resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily trade receivables from customers other than government entities. These Trade receivables are typically unsecured and are derived from revenue earned from domestic and foreign customers. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the credit worthiness of customers to which the company grants credit terms in the normal course of business. On account of adoption of Ind AS 109, the company uses expected credit loss model to assess impairment loss or gain. the company uses a matrix to compute the expected credit loss allowance for trade receivable .

Credit risk management

Credit risk is managed on instrument basis. For Banks and financial institutions ,only high rated banks /institutions are accepted. For other financial instruments, the company assesses and maintains an internal credit rating system. The finance function consists of a separate team who assesses and maintain internal credit rating system. Internal credit rating is performed on a company level basis for each class of financial instrument with different characteristics.

VL1 : High-quality assets, negligible credit risk

VL2 : Quality assets, low credit risk

VL3 : Standard assets, moderate credit risk

VL4 : Sub-standard assets, relatively high credit risk

VL5 : Low-quality assets, very high credit risk

VL6 : Doubt full assets, credit-impaired

The company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk the company compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It considers available reasonable and supportive forward- looking information. Especially the following indicators are incorporated:

1. Internal credit rating
2. External credit rating (as far as available)
3. Actual or expected significant adverse changes in business, financial or economic conditions that are expected to cause a significant change to the borrower's ability to meet the obligation.
4. Actual or expected significant changes in the operating results of the borrower.
5. Significant increase in credit risk on other financial instruments of the same borrower
6. Significant changes in the value of the collateral supporting the obligation or in the quality of the third-party guarantees or credit enhancements.
7. Significant changes in the expected performance and behaviour of the borrower, including changes in the payment status of borrowers in the group and changes in the operating results of the borrower.
8. Macro economic information (such as regulatory changes, market interest rate or growth rate) is incorporated as part of the internal rating model.

In general , it is presumed that credit risk has significantly increased since intial recognition if the payments are more than 30 days past due.

A default on a financial asset is when the counterparty fails to make contractual payment within 180 days of when they fall due. This definition of default is determined by considering the business environment in which entity operates and other-economic factors.

(B) Liquidity Risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, the company treasury maintains flexibility in funding by maintaining available under committed credit lines.

Management monitors rolling forecasts of the company's liquidity position (comprising the undrawn borrowing facilities below) and cash and cash equivalents on the basis of expected cash flows. This is generally carried out at local level in accordance with practice and limits set by the company. These limits vary by locations to take into account the liquidity of the market in which the entity operates. In addition, the company's liquidity management policy involves, projecting cash flows in major currencies, considering the level of liquid assets necessary , monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.

(i) Financing arrangements

The company had access to the following undrawn borrowing facilities at the end of the reporting period :

Particulars	31st March, 2021	31st March, 2020

Expiring within one year (bank overdraft and other facilities)	Nil	Nil
Expiring beyond one year (bank loans)	Nil	Nil

(ii) Maturities of financial liabilities

The tables below analyse the group's financial liabilities into relevant maturity groupings based on their contractual maturities for :

1. All non-derivative financial liabilities and
2. Net and gross settled derivative financial intruments for which the contractual maturities are essential for an understanding of the timing of cash flows.

The amounts disclosed in the table are the contractual undiscounted cash flows.

(C) Market Risk

The company is not an active investor in equity market. It continues to hold certain investments in equity for long term value accretion which are accordingly measured at fair value through other comprehensive income. Accordingly, fair value fluctuations arising from market volatility is recognised in other comprehensive income.

(i) Foreign Currency Risk

The company's exposure to foreign currency risk & Derivative financial Instruments as on 31st March, 2021

The Company don't have foreign currency exposure hence no foreign exchange forward contracts are required to hold and to mitigate the risk of foreign exchange fluctuation.

(ii) Cash flow and fair value interest rate risk

The company's main interest rate risk arises from long term borrowings with variable rates, which exposes the company to cash flow interest rate risk. Group policy is to maintain most of its borrowings at fixed and variable rate using interest rate swaps to achieve this when necessary.

The company's fixed rate borrowings are carried at amortised cost. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

Interest rate risk exposure

The exposure of the company's borrowing from banks and financial institutions to interest rate changes at the end of the reporting period are as follows:

Particulars	31st March,2021	31st March,2020
Variable rate borrowings	5,876.52	11,654.91
Fixed rate borrowings	68.18	129.46

(iii) Price risk

The company's exposure to equity securities price risk arises from investments held by the company and classified in the balance sheet either as fair value through OCI or at fair value through profit or loss .

Profit for the period would increase/ decrease as a result of gains/losses on equity securities classified as at fair value through profit or loss. Other components of equity would increase/decrease as a result of gains/losses on equity securities classified as fair value through other comprehensive income.

Note-35 : Capital Mangement**Risk management**

The company's objectives when managing capital are to:

(a) safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders, and

(b) maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the company may adjust the amount of dividends paid to shareholders, return on capital to shareholders or issue new shares. The company monitors capital using gearing ratio, which is net debt divided by total Equity. Net debt comprises of long term and short term borrowings less cash and bank balances. Equity includes equity share capital and reserves that are managed as capital. The gearing at the end of reporting period was as follows:
